

Dicken Kumar K

+91 8867325554 | dickenbagrecha18@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

CSE-AI/ML undergraduate with experience building full-stack and backend applications using Python, C++, FastAPI, React, and PostgreSQL, with additional expertise in machine learning, NLP, computer vision, LLMs, and agentic AI.

Education

Bachelor of Engineering

Computer Science and Engineering – AI & ML
Maharaja Institute of Technology Mysore
CGPA: 8.25/10 | 2023 – 2027

12th Grade

Sadvidya Composite Pre University College
Percentage: 89.8%
2022 – 2023

Publications

- “A Natural Language Driven Agentic AI Framework for Automated Household Inventory Management”
Yashaswini C, **Dicken Kumar K**, Afnan Habeeb, Dr. Ranjith K C, Prof. Nidarsh P
4th IEEE International Conference on Knowledge Engineering and Communication Systems (ICKECS), April 2026
IEEE Xplore | DOI: 10.1109/ICKECS70176.2026.11528057 | Best Paper Presentation Award — Session 17

Professional Experience

Mobile App Development Intern – RunShaw Technologies Private Limited

Jul 2025 – Aug 2025

Developed mobile applications using Flutter and Kotlin, integrating REST APIs and implementing application functionality while performing testing and debugging to ensure reliable and user-friendly software.

Leadership & Experience

Executive Coordinator – InnovateX Club

Nov 2025 – Nov 2026

Led technical events and innovation initiatives, coordinating student teams and driving a 50% increase in participation.

Designing & Publication Head – CSE-AI & ML Department

2024 – 2026

Led department-wide digital content and creative initiatives across academic and student activities.

Projects

- Marine Orchestration Platform – Agentic AI Powered Fishery Management System**
Python, FastAPI, React, PostgreSQL, ML, Agentic AI GitHub
Built a multi-agent fishery management system using Python, FastAPI, React, and PostgreSQL, implementing spoilage prediction, price forecasting, cold-storage monitoring, and real-time store-or-auction decision logic
- AWAAZ – Multilingual AI-Powered Civic Grievance Platform**
React, FastAPI, PostgreSQL, AI/NLP GitHub
Built a multilingual grievance platform using React, FastAPI, and PostgreSQL, implementing voice/text complaint processing, structured data handling, categorization, prioritization, geospatial mapping, and end-to-end tracking.
- HydroIntel Control – Agentic AI Powered Smart Water Network**
React, Tailwind CSS, Chart.js, Leaflet, Web Speech API GitHub
Built an intelligent water-network platform using React and geospatial technologies, implementing telemetry visualization, infrastructure monitoring, anomaly detection, voice interaction, and valve, pump, and irrigation control.
- SignHealth – Real-Time Indian Sign Language Interpreter**
Python, TensorFlow, MediaPipe, Flask, OpenCV GitHub
Built a real-time Indian Sign Language interpreter using Python, MediaPipe, TensorFlow, and OpenCV, implementing landmark extraction and bidirectional LSTM inference to translate gestures into text and speech.

Technical Skills

Programming: Python, C++, C

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Web & Backend: React.js, HTML, CSS, Tailwind CSS, FastAPI, REST APIs

Databases & Tools: PostgreSQL, SQL, MongoDB, Git, GitHub, Linux

AI & ML: Machine Learning, Deep Learning, NLP, Computer Vision

Generative & Agentic AI: LLMs, Agentic AI, Google ADK, Gemini

Certifications

Agentic AI and AI Agents: A Primer for Leaders

Machine Learning Pipelines with Azure ML Studio

Generative AI: Introduction and Applications

Deep Learning with Keras and TensorFlow

Achievements & Activities

- 1st Place — Sristhi Hackathon 2026, SDM College of Engineering and Technology, Dharwad
- 1st Place — Ethnotech Academy Project Presentation 2025, Ethnotech Academy Solutions, Bengaluru
- 2nd Place — Hack for Hire 2025, P.E.S. Institute of Technology and Management, Shivamogga
- Runner Up — AUTOwn '25 Project Presentation, BITS Pilani, Hyderabad
